Recording Secretary  
Amer. Humismatic Society

Dear Mr. Helden

The annual meeting of the  
Corporation of the Metropolitan  
Museum of Art, of which I am  
a Member, will occur simultane-  
ously with that of the  
Monthly meeting of the Humis.  
Soc. on the evening of the  
15<sup>th</sup> inst, and I shall not  
be able to attend the latter.

Regretting that I shall not  
have the pleasure of meeting  
you and other members on  
Monday night

Yours very truly  
A. J. Floor

Dear Mr Belden.

Your call for a meeting of the  
A.N.S. on the 20<sup>th</sup> is forwarded  
to me here, and I also got that  
for a previous one.

I left summer quarters in Ston-  
ington early last month, but  
have been most of the time  
since, on the wing, and only  
nominally in town. After the  
holidays, however I shall  
be in N.Y. more in earnest,  
and will then use my hands

is a privilege as often as  
honorable; though I don't now-  
adays face blizzards at night  
as unflinchingly as I used to.

Yours very truly

Dear Mr Belden

I am in receipt to-day of a circular letter of the "Committee on the publication of medals", dated 1<sup>st</sup> January and postmarked yesterday, Jan'y 31<sup>st</sup>, 3 pm.

It is the first intimation I have had of the Society issuing a medal "in commemoration of the 100<sup>th</sup> anniversary of the establishment in 1808 of the Diocese of New York, of the Roman Catholic Church".

my own fault, I suppose, for not getting up to the meetings oftener.

Although in consequence of the non-information indicated, I have not supplied for (it) prior to February 1, 1910\* I should be glad to have a bronze copy, & will send my cheque for the amount of its cost if such bronze copy be forwarded to me.

Yours very truly A. J. Bloor

## MISS SCHUYLER'S SERVICES

---

**Not Confined to the City Institutions.**

To the Editor of The Tribune.

Sir: I note in your issue of to-day that "Mayor Mitchel is scheduled to speak at a luncheon at the Colony Club on Thursday in honor of Miss Louisa Lee Schuyler's efforts for forty years in behalf of city institutions."

Before Miss Schuyler began those efforts she had not only throughout the Civil War devoted herself to the work of alleviating the sufferings caused by that conflict—as by all wars—but it was mainly through her initiatory work that the United States Sanitary Commission emerged from the Woman's Central Relief Association of New York City, which she, with Miss Ellen Collins, Mrs. George Curtis and some other women of like stamp, started at the outbreak of the conflict, and which association became part of the commission, as its New York branch.

NEW YORK. March 5/15

Dear Mr. Belden

I am old & ailing enough, in these days, to  
~~feel~~ that I have a right to leave to  
younger fellow members the active  
~~work~~ work in any of the general  
societies, to which I have the honor  
to belong. So I don't undertake  
to hunt up new members for any of  
them.

But I want to ask if you really, as he  
said, ~~that~~ sent a "Dr. William Haggis  
man" to me, who announced himself  
as an expert of long experience - mainly  
in Italy I understood him to say - in the  
handling & recording of archaeological data -  
and as having long but unsuccessfully sought  
re-employment in that select line.  
Evidently a man of culture, he came to  
me yesterday & told me a pitiful story of  
having a family of three little children,  
but entirely without means to provide  
for them.

Having, for over 30 years, wasted my strength  
means & opportunities to build up a society

of architects — who, as a body, have never  
appreciated my labors in their behalf —  
I have mighty little to expend in personal  
charity, especially since the present  
devil's doings in Europe began. I did,  
however, give him a trifling amount  
that might help toward tiding him  
over a day or two. And I took his name  
to address & told him if I ~~should~~ should  
hear of any chance for him, I would  
let him know. But before drawing  
on my strength in trying to present his  
case to any one, I should be glad to  
learn what you know of him. Is he gen-  
uine?

With as much interest in the Humis-  
matic Society as when I could move  
about freely, I am  
Yours very truly

Wm. L. Belden

I hope you will be able to make something out  
of my chirography. My right arm & hand  
are often now and then crippled by neuritis.

March 8th, 1916.

Mr. A. J. Bloor,

38 East 57th Street,

New York.

My dear Mr. Bloor:-

Your letter of March 5th came to hand on Saturday, and as I had to leave here early I did not have time to send an immediate reply..

As regards Dr. William Haggaman, I have no recollection of him whatever. I had an inquiry regarding him from a man in Baltimore a short time ago, and at that time I made inquiry of Mr. Elder, the coin dealer, to see if he knew him, without result. I regret, therefore, that I can not give any information about him..

I was very glad indeed to get a letter from you as I have thought of you considerably of late. I am sorry to hear that your health is not good, and you do not get around easily, but hope that it will improve before long, and you will feel like paying us a visit up here. We are adding to our exhibits a little now and then, and I think the place is in pretty good shape.

With kindest regards, believe me,

Most cordially yours,
